

Families Information Service (FIS)

The Families' Information Service (FIS) provides information, advice and guidance for parents, carers, practitioners and children on the wide range of services and activities/events available for children and young people aged 0-20 years old.

We have a free-phone help-line, as well as managing this on-line directory of services (Peoples Information Network)

Services included in the directory range from leisure activities through to specialist support organisations. We are always looking for new services to promote on PIN so if you have a service or event that you think should be in PIN then please get in touch!

If you're looking for childcare, short breaks for disabled children, or simply something to do in the school holidays, please get in touch!

We can find childcare for you for FREE

We can help parents and carers to find Ofsted registered childcare throughout Redcar & Cleveland using our computer database that offers a wide range of childcare provision from childminders and day nurseries to toddler groups.

So if you are working, training or simply need your children to be looked after in the short term, our staff can help find the right childcare for you.

Who to contact
