

Redcar & Cleveland College

Redcar & Cleveland College offers full and part-time courses at all levels, from entry level to HNCs and degree qualifications. The College also offers a wide range of business training courses, including specific tailored packages, short-update courses and access to funding support where applicable. Redcar & Cleveland College has a fantastic range of courses on offer in the following areas: -The Built Environment -Business Administration & Retail -Childcare -Computing & IT -Counselling -Engineering -Hair, Beauty & Holistics -Health & Social Care -Public Services -Sports & Fitness -Teacher Education & Learner Support -Travel & Tourism The College offers a FREE Arriva bus pass on routes throughout Teesside and North Yorkshire for full-time students under 19 years old. Please see the College's website for details. The college moved to a 28 million purpose-built campus in September 2008, which provides a state-of-the-art learning environment for students. It offers the latest audio visual, computer and support systems, equipment and tools for students to enjoy an outstanding learning experience. The college opened its multi-million pound Higher Education Centre in September 2010, to deliver the state-of-the-art learning facility for students studying Higher Education courses. The centre makes it much easier for people in Redcar and East Cleveland to study degree courses by providing a local facility. The realistic and professional working environments offered by the college are set to a very high standard. Together, with high quality teaching and learning from an energetic team of committed and highly experienced staff, the college can provide one of the very best learning experiences you could ever wish to have.

Local Offer

Local Offer Description

Preparing for Adulthood:

Our Preparing for Adulthood (PfA) Room provides learners with Special Educational Needs and/or Disabilities (SEND), support to ensure they have equal life chances as they move into adulthood. The room is sectioned into small booths, each focused on one of the 4 key pathways:

independent living, employment, good health, and community inclusion. Each booth contains key information from specialist agencies to ensure learners have all they need to develop their skills, and prepare for their next steps.

Firstly, our PFA Coach works with young people on a 1:1 basis to complete a vocational profile which highlights any skills and knowledge gaps. Our coach then works with learners to create an individualised action plan, ensuring learners have choice and control over all aspects of their lives and support. Over the academic year, learners continue to work and review their goals ensuring that they are fully equipped and prepared for their journey into adulthood.

Support with mobility/Physical Access: All main access points have automatic doors and there are lifts that are badge activated to all floors. There are also height adjustable desks and disabled toilets on each floor.

Specialist equipment and assistive technology: The college provides a wide range of assistive technology dependent upon individual needs including but not limited to laptops, memory sticks, bespoke chairs and IT programs. A first aid room and washroom is available with hoists.

Pastoral Support: All full time students have access to the college Welfare team who can offer support and guidance throughout the year. The Welfare team can also signpost students to **counselling and support services** as appropriate .

Transition Support: Initial meetings are usually conducted with the SENCo in conjunction with students, parents, the Local Authority and other relevant agencies. Further support and guidance is provided by the SENCo and Learning Support team.
